## PROFILE

Architectural Designer with international experience in residential and urban projects, specializing in spatial planning, permit drawings, and construction documentation. Proficient in Autocad, Revit and Archicad, with experience collaborating across all design phases. Focused on creating context-driven, human-centered environments. [About me](#)

## EXPERIENCE

### Architect / UX Researcher

Barsin Design Studio, Dubai, UAE | 2024 – 2026

- Led residential projects from concept to permit documentation using Revit.
- Coordinated design development across multidisciplinary teams.
- Produced high-quality 3D visualizations and animations using Twinmotion.
- Contributed to user research and human-centered design.

### Architect / Landscape Architect

Archotify Bostadslyftet AB, Kungsbacka, Sweden | 2020 – 2023

- Designed residential and landscape projects from concept to detailed design.
- Developed permit drawings and coordinated approval documentation.
- Prepared structural and architectural models using Tekla and Archicad.
- Produced visualizations and presentations for client communication.

### Freelance Architect

Freelance Architect, Gothenburg, Sweden | 2017 – 2020

- Delivered residential and small-scale projects from concept to visualization using Revit.
- Collaborated with clients to develop tailored design solutions.
- Produced 3D models and visual presentations for design communication.

### Revit Coordinator

Eyvankhaneyeh Memar, Tehran, Iran | 2009 – 2012

- Supported residential and landscape design in early stages.
- Assisted with drafting, detailing, and architectural documentation.
- Contributed to research and concept development.
